## DIRECTIONS FOR USE

For removing hard water deposits and soil accumulations, apply to any washable surface using a sprayer, cleaning cloth, swab or brush. Allow time for the chemical action to begin dissolving the soils. If needed, scrub, using a mild abrasive pad or brush. Exercise caution when using abrasive pads on chrome, stainless steel, formica or painted surfaces, as they may scratch these surfaces. For routine cleaning it is generally not necessary to use a brush or other abrasive tool. Simply clean, using a sponge or cloth, then polish with a dry towel. Rinsing is typically not necessary.

For Stainless Steel, clean, then polish using clean dry toweling or paper towels.

Meets USDA standard rating C2  
Letter of Guaranty available upon request.

## PRODUCT PERFORMANCE CHARACTERISTICS

For keeping basins, showers, bowls, urinals and washroom surfaces clean and fresh in one easy step. Its mild food-grade acidic formula removes soap film, body oils, make-up and mineral deposits from any washable surface without damage. This one-step cleaner cuts through grime and requires no rinsing.

Using a sprayer, hand bucket and sponge, or mechanical spray device, simply apply the solution to the surface and wipe clean.

Chrome, stainless steel and other high gloss surfaces may be polished with a clean, dry cloth, if desired. Also excels at removing those difficult stains from ceramic tile floors and grouting.
